Ship Building in New York. The following is a statement of the numb description of vessels now on the stocks, and just being commenced, at the various shippards around the city. It was anticipated by many in the busi-ness, that this spring would show a great increase of activity in this important branch of industry; but these expectations have unfortunately not as yet been realized, as is shown by the comparatively deserted appearance of many of the yards. In fact, the number of vessels now building is less by some half dozen than at the close of last December, and we can hear of no new contracts, of late, being en-

tered into.

The demand for steamers, to judge by the annexed statement, still continues to preponderate over sailing craft, the number of that class now on the stocks being sixteen, out of a total of twenty-eight, and these are, with one or two exceptions, of a large

THE NEW YORK YARDS .- Mr. Thomas Collyer, foot of Twentieth street, has the frame raised of a powerful steam tug, a mate to the Achilles. She is very large for that class of steamboats, and is to be built extra strong, with a very powerful engine She will be 528 tons burthen, 175 feet long, 29 broad, and 104 deep, and will be launched about the 1st of May. Mr. Charles Morgan, of the Morgan Iron Works, is constructing her machinery. The steamer for himself, we have previously spoken of, is now ready to launch. Having her machinery on board, she will be ready to commence operations imme-diately after launching. Messrs. Pease & Murphy are the contractors for her engine.

Mr. William Collyer, at the adjoining yard, is progressing with Messrs Livingston & Meade's steamer, Black Warrior, for the Mobile trade, and the steamer Forest State, for the Portland Steam Packet Company. The former has her outside planking nearly up, and the latter is still more advanced. Their dimensions, &co., we have previously given.

Mr. Jeremiah Simonson, at Eighteenth street, is progressing rapidly with Com. Vanderbilt's steamship San Juan, for the California trade. Her outside planking is about completed.

Mr. W. H. Brown, Twelfth street, has just commenced a steamer of about 2,500 tons, for J. Howard & Son, for the Panama and San Francisco trade. She will be launched in August, and be ready to leave about the 1st of Jan. She will be fitted with a beam engine from the Morgan Works. Her dimensions are :- Length, 275 feet; beam, 42; hold,

Mesers. Westervelt & Mackay, at Eighth street have just laid the keel of a 1,100 ton ship for Mr. W. Tyson, to be employed in the New Orleans and Havre trade, unde the command of Capt. Sagory. She will be 175 feet long on deck, 38 feet wide, and 28 deep. Mr. Aaron J. Westervelt, Houston street, has the

the Wm. Skiddy, ready to launch. The latter is about 100 tons burthen. The same builder has also just commenced a California clipper ship for Messrs. Chambers & Heiser, of about 800 tons. She will be 153 feet long, 34 beam, and 21 deep.

Mr. Wm. Webb, Sixth street, has just commenced planking a bark for Messrs. Godfrey & Wakeman, of about 500 tons burthen. She will be ready for launching in about six months. Dimensions:—Length, 125 feet; beam, 30; and depth, 14 feet. He has also just raised the frame of a mammoth freight ship of 2,000 tons, for Capt. Edmonds and Williams & Guion, fer the Liverpool trade. She is 190 feet long, 40 wide, and 28 feet deep. Capt. E. will command her. Mr. Webb has likewise just put down the keels of a 3,000 ton seam-ship for Mr. Geo. Law, and a California clipper ship of 1,500 tons for another party. The steamer will be 270 feet long, 40 beam, and 22 deep; the ship 190 feet long, 38 beam, and 214 deep. Mr. C. Morgan is building the machinery for the steamer.

Messrs. Smith & Dimon, at Fourth street, have laid the keel of a steamship for the Pacific Mail Steamship Company, of about 2,500 tons burthen. She is to be fitted with a single oscillating engine, of the same power as one of those in the Illinois, from the works of Stillman & Allen. Her dimensions are:—Length, 275 feet; beam. 40 feet; depth, 23 feet. She is expected to be ready to launch in September next.

Mr. Jacob Bell, Stanton street, will launch, in

Mr. Jacob Bell, Stanton street, will launch, in about a fortnight, the clipper ship Messenger, for Capt. Smith. She is 1,350 tons burthen, 200 feet long, 38 wide, and 22 deep. He has also the frame up of a schooner, owned by himself, of 216 tons, to be commanded by Capt. W. H. Lowden.

The WILLIAMSEURG YARDS.—Messrs. Perine, Patterson & Stack are building a 600 ton ferry boat for the trustees of St. Patrick's Cathedral, 150 feet long, 32 wide, and 12 deep, (machinery by the Novalty Works) and another.

drai, 189 feet long, 32 wide, and 12 deep. (machinery by the Novelty Works.) and another for the Houston street ferry, of 500 tons, 135 feet long, 32 wide, and 11 deep. They will both be ready to launch about the first of July. Also, a 300 ton schooner, for Mr. W. B. Whitehead, to be employed in the wood trade. Her dimensions are:—Length, 120 feet; breadth, 29 feet; depth, 10 feet. She will be launched about the first of June. This firm is also constructing a steamer, called the Eriesson, of 2,200 tons burthen. She will be fitted with an Eriesson caloric engine, the first, we understand, ever placed on board a vessel. This kind of engine is worked by hot air instead of steam, and is said to be of immense less expense in working, and to take up less room than those ordinarily employed. Messrs. Hogg & Delamater are constructing it. She will be launched in August, and is to be employed in the Liverpool trade. Her dimensions are:—Length, 250 feet; beam, 40 feet; depth of hold, 27 feet. the Novelty Works.) and anothe

THE GREEN POINT YARDS.—Mr. S. Sneden has THE GREEN POINT YARDS.—Mr. S. Sneden has just ready a steamboat for the New York and Jersey trade. She is 150 feet long, 24 wide, and 8 deep. Engine by the Phenix Works He will also launch, in about a fortnight, the steamboat for the Hartford and New York Steamboat Company. Her dimensions we have already given. Mr. Charles Morgan is constructing her machinery. Mr. S. is also about commencing a small steamer for foreign account, to be employed between Havana and other Spanish West India ports. She will ton about 500; will be 144 feet long, 25 wide, and 16 deep. Messrs. Pease & Murphy supply her engine.

& Murphy supply her engine.

Mr. Eckford Webb has the frame up of a small oyster boat, for Mr. Levines, of New Rochelle. She is 31 feet long, 12 wide, and 4 deep.

Mr. E. F. Williams will have ready for launching

in two or three weeks a schooner for the wood trade, of 260 tons burthen.

THE HOBOKEN YARDS -- Mr. Isaac C. Smith has on The Hoboken Yards -Mr. Isaac C. Smith has on the stocks a large steamer for the Camden and Amboy Railroad Company She is about 800 tons; is 252 feet long, 31 feet wide, and 104 deep. This vessel has a very large deck, measuring 65 feet across her guards, and she is computed to carry about 1,200 tons of freight. To make her strength sufficient for this, she has screw bolts through all her planks, and instead of her frame being iron-strapped inside, and blunt bolted, as usual, it is strapped outside, and screw bolted. She is nearly ready for launching. The same builder launched, on the 11th ult., the steamer Angeline Coming, owned by Mesers. Duboise & Coming, to be employed in towing. She is 90 feet long, 19 beam, and 64 deep. Hogg & Delamater build her machinery. Also, on the 27th ult., a steamer for Mr. Charles G. Allen and others, of Shrewsbury; she is 130 feet long, 21 beam, 64 deep. She is of very light draught, being designed to draw 24 feet water with machinery and fuel on board. Engine building by Mr. J E. Coffee.

Mesers. Capes & Allison have finished, and will launch directly, a ferry boat for the Jersey City Ferry Company; and also an iron barge, the dimensions of which have been already recorded.

Industrial Congress.

This body met yesterday evening at the usual hour, in the new City Hall. There were very few members pre-

Motion was made that Congress go into an election of officers on the third Tuesday of April. which was carried. The following resolution was offered by Mr. Howe :-

Resolved. That a committee of three be appointed to draw up a memorial to the United States Congress requesting them to pass a bill making the public lands free to actual settlers, in limited quantities. Carried.

NEW OFFICE OF INSPECTOR OF BUILDINGS. Mr. Smith offered a resolution, that Congress recom mend to the Common Council two persons-one a practical mason and the other a carpenter, to superintend and take charge of all buildings now in course of erection, or to be in future erected; that they be recommended by

to be in future erected; that they be recommended by the trade societies of these branches, and the compensation not to exceed \$2.50; that in this matter political favoritism and political considerations should be entirely discarded, and that a copy of the resolutions be transmitted to the Common Council.

Mr. Suraman did not see why the person that is to fill that office should not be a politician. He would like to see every laborer a politician. It is politicians that make the Legislature and the Legislature that makes laws.

AWT.

Mr. BOURERMAN. after making some remarks on the
soudhilon of the laboring man. expressed himself in favor
of the whole matter laying over until next meeting.

Mr. Hawn.—If we lay it over, the probability is that the

post will be filled before our next meeting. He hoped that Congress would not take any such action, but that they would have the resolutions presented to the Commen Council. In urging the necessity of immediate action, he mentioned some facts in relation to the carriersmess of constructing buildings, and among others, the falling, during the storm on Monday night, of the building now in course of eraction at 69 First avenue, in connection with which, he stated that besides the five horses that perished, it is believed that two colored men, who slept there every night, are also buried beneath the ruins, as they have, as yet, been missing. The resolution does not prohibit a man from being a politician; it merely provides that in the election to this office, no political favoritiem or consideration should be regarded, but merely the competency of the individual.

ration should be regarded, but merely the competency of the individual.

Mr. Warr thought that Congress should not undertake to fix the price, and asked if human life was to be brought to weigh against a few dollars and cents? He hoped that that portion of the resolution fixing the price of the inspector of buildings would be struck out.

Mr. SMITH moved as an amendment, that the sum of \$1,000 per annum be inserted in place of \$250 per day, and hoped that Congress would adopt the course of the carpenters in the catastrophe of the falling of the buildings in Twenty-third street last year, which would certainly give more effect and influence to their action in this matter.

Mr. SMICHEMANN.—If the mechanic is going to rise in society, it must be through his own efforts. We must lay a compensation on our own talent, and not allow others to do so.

Mr. SMARROT thought that the creation of this office.

a compensation on our own takent, and not allow others to do so.

Mr. Sharkor thought that the creation of this office would not remove the evil under which we are laboring. We must conumence at the root; we must abolish the odious contract system.

Mr. Willis said the resolution only had in view the crection, whereas it should also provide for the pulling down of buildings. He thought that ten inspectors instead of two should be elected.

The motion of striking out the price was then put and lost.

Mr. SHERMAN moved that the whole matter be laid over and made the subject of order for the next meeting.

The motion was carried.

FUGITIVE SLAYE LAW.

and made the subject of order for the next meeting. The motion was carried.

FUGITIVE SLAVE LAW.

The following resolutions were then offered by Mr. West:
Resolved. That this Congress views with feelings of alarm and indignation, the recent action of Commissioner Morton, in the case of one Preston, claimed as a fugitive slave, the said Commissioner having refused to Preston the right to prove his freedom.

Resolved, That this Congress re-affirms its hostility to the Fugitive Slave law, carnestly deprecating its enforcement, and calls upon all who claim to be or would be freemen, to exert their utmost power to procure its repeal.

Mr. Saith moved they be laid on the table, but subsequently amended the motion, by laying over to the next meeting.

Mr. Prick was glad to find that such a resolution was brought before the Congress. He was a freeman, and not afraid to meet this matter. He hoped that when the matter will come up at the next meeting, the action of that body will not be dodged by hurrying the subject through with all haste, as has heretofore been the case in subjects of this kind, and that it will pass the Congress.

Mr. Shekeman hoped that it would be laid over to next

through with all haste, as has heretofore been the case in subjects of this kind, and that it will pass the Congress.

Mr. Sherman hoped that it would be laid over to next meeting, and be made the special order of the evening. Mr. West said Congress, by their decisive action, should condemn the outrageous and villanous conduct of Commissioner Morton, in preventing Preston from proving his freedom. Such conduct should roceive the stamp of condemnation, and they ought to be prepared to act upon it at any moment. He said that every slave who was endeavoring to effect his freedom, should receive every assistance and encouragement from him. If that is treason, it is a kind of treason of which he would not be a hamed. He hoped the resolutions would be adopted. Mr. Sharror was opposed to all action on the subject. It is probable that all the particulars of this case are not yet fully known. He hoped that the matter would be postpened, and thoroughly deliberated.

Mr. Crony—This is now the time to act, while the minds of the people are bent upon the subject.

Mr. Amonas was decidedly in favor of the first resolution, but not without discussion. He hoped, therefore, that the matter would be laid over.

While there was some discussion as to protracting the session beyond the usual time appointed by the regulations, Mr. Paick moved an adjournment, which was carried.

EFFECTS OF THE STORM .- On Monday night we were visited by another of the storms which have been of so visited by another of the storms which have been of so frequent occurrence within the last three months. During the evening a heavy fall of snow set in, occasionally interspersed with hail and sleet, and accompanied by a strong wind from a north-easterly direction, which constantly increased until towards midnight, when it blew a violent gale, doing considerable damage to property. The tide in the North river rose so high that the water broke over the piers, and flooded all the neighboring streets; the ferry boats were also impeded from the same cause. It is feared that the large amount of merchandise lying on the piers has been considerably damaged and destroyed. In the interior of the city we observed that a great many awnings were torn to pieces, and wooden posts and iron posts jujg scattered on the sidewalks. We also understand that more or less damage has been done to all the telegraph wires. Several buildings, in the course of erection, were damaged by the storm, and one at Sixty-ninth street and First avenue was blown down. The walls fell upon an adjoining stable, which was crushed under the immense weight, and buried beneath its ruins five horses and an ox. Upon intelligence of the circumstance being given, which caused considerable alarm among the inhabitants of that part of the city, a large police force from the Seventeenth ward, was immediately despatched to the place by Capt. Hart, to render the necessary assistance, and to protect the property. The new building belonged to Mr. Jeremiah. The whole loss, including the horses, is estimated at about \$3,000. The faßing of the building is attributed to the fact that the gable and rear walls were carried up five stories, while the front wall was left almost open, not being built higher than one story.

Chamber of Commerce, —The transactions of this body, yesterday afternoon, were unimportant. Charles H. Russel was elected a member of the Arbitration Committee, and twenty-three new members were proposed. At the next meeting an election will be gone into f frequent occurrence within the last three months. During

by limitation, unless unanimously re-elected. Mr. Blunt moved for the appointment of a committe to report on the condition of light houses in the United States, as developed in the recent report of the Light-house Board. Messrs, Curtis, Biewith and Phillips were appointed said committee. A communication in relation to trade between the United States and Canada, by J. B. Ketching, was referred to a committee, to be reported upon at the next meeting. Adjourned.

First.—Vesterelay morning, about half past eight o'clock, a fire broke out in a rear room of the Old Brewery, No. 61 Cross street, which is principally occupied by a large force of the Sixth ward police were promptly on the ground, and subdued the fiames before the arrival of the fire engines, causing but trifling damage.

Accident a Falling.—About eight, on Monday evening, a man, named Michael Connell, fell down in South street, and cut his head severely. He was found by officers Donnelly and Shea in a state of insensibility, and was taken to the City Hospital.

Police Intelligence.

Charge of Forgety.—Officer Radford, of the Third ward, yesterday arrested a young man maned Matthew Ward, charged with having forged a check for \$13 88 on the Bank of New York, in the name of Sackett, Beleicher & Co., merchants, at 25 Pearl street, which he passed to Bassett & Aborn, of 25 Park Row, for goods. The accused was taken before Justice Lothrop and committed for examination.

Selling Lottery Tickets.—A Mr. Kelley, who keeps an exchange effice in Canal street, near Broadway, was yesterday arrested by officers Green and Elder of the Lower Police Court, charged with selling a lottery policy to the driver of hack No. 25. The ticket is alleged to have been seld in the presence of Mr. David P. Wheaton, of No. 140 Nassau street. The accused was held for examination, by Justice Lothrop.

Charge of Constefficing.—A man named William Kennedy was yesterday arrested, charged with having passed a counterfeit five dollar bill, on the Bank of Midhetown. Pa., to George Crane, of No. 2 Jefferson street. It is alleged that the accused was aware of the character of the bill at the time of his passing it. He was committed by Justice Lothrop for examination.

Assenti.—A man named Timothy Harrington, residing at No. 20 Dover street, while passing through White street, at an early hour yesterday morning, was attacked by several individuals, one of whom struck him over the eye with a slung shot, and knocked him senseless to the pavement. The assalinats then fled, leaving their victim in that state. He was found shortly after by officer Mehan, of the Sixth ward, and taken to the station house, where Dr. Simmons dressed his wounds; after which by advice of the Doctor, he was removed to the New York Hospital.

The case of John Sass, who was arrested on Monday, charged with a telempting to take the life of Janues Leonard, a stage driver, by shooting him, was yesterday investigated before Justice Mountfort, and resulted in the accused being held to ball in the sum of \$500, to answer the charge of ascault and

The Georgia Southern Rights Democratic Convention which met at Milledgeville on the 31st March, adepted the following resolutions:

Recoved. That the democratic party of Georgia again re-affirm their adherence to the principles laid dawn by the following resolutions of the convention of the democratic party heid at Baltimore in the year 1845, and that we adopt them as the sentiments of this Convention:

Recoved, That the American people.

Recoved, That we regard this as a distinctive feature of our political creed, which we are proud to maintain before the world, as a great moral element in a form of government springing from and upheld by the popular will; and we contract it with the creed and practice of federalism, under whatever name or form, which seeks to pally the will of the constituent, and which conceives no imposture too monstrons for the popular credulity.

Resolved, therefore, That culeriaming these views, the democratic party of this Union, through their delegates assembled in a general convention of the States, coming together in a spirit of concord and devotion to the doctrines and faith of a free representative government, and appealing to their fellow citizens for the rectifude of their intentions, remew and reasert before the American people, the declaration of principles avowed by them when on a former occasion, in general convention they presented their candidates for the popular suffrages.

1—That the federal government is one of limited powers, shown therein, ought to be strictly construed by all the departments and agents of the government; and that it is in expedient and dangerous to exercise doubtful constitutional powers.

2—That the constitution does not confer upon the general government the power to commence and carry on a general system of internal improvements, or other State purposes; nor would such assumption be just and expedient.

4—That the constitution does not confer authority upon the federal government, diversity or indirectly, to assume the debts of the several States,

the people.

9—That the liberal principles embodied by the Declara-9—That the liberal principles embodied by the Declara-tion of Independence, and sanctioned in the constitution, which makes ours the land of liberty, and the asylum of the oppressed of every nation, have ever been cardinal principles in the democratic faith; and every attempt to abridge the present privilege of becoming citizens and the owners of soil among us, ought to be resisted with the same spirit which swept the alien and sedition laws from our statute books. Recoived, That the proceeds of the public lands ought to be sacredly applied to the national objects specified in the constitution, and that we are opposed to any law for the distribution of such proceeds among the States, as alike inexpedient in policy, and repugnant to the consti-tution.

alike inexpedient in policy, and repugnant to the consutution.

Resolved. That we are decidedly opposed to taking from
the President the qualified voto power, by which he is
enabled, under restrictions and responsibilities amply
sufficient to guard the public interest, to suspend the
passage of a bill whose merits cannot secure the approval
of two-thirds of the Senate and House of Representatives,
until the judgment of the people can be obtained thereon,
and which has saved the American people from the corrupt and tyrannical dominion of the Bank of the United
States, and from a corrupting system of general internal
improvements.

rupt and tyrannical dominion of the Bank of the United States and from a corrupting system of general internal improvements.

Resolved, That in the recent developement of this grand political truth of the sovereignty of the people, and their capacity and power of self-government, which is prostrating thrones and erecting republics on the ruins of despotism in the old world, we feel that a high and sacred duty is devolved, with increased responsibility, upon the democratic party of this country, as the party of the people, to sustain and advance among us constitutional liberty, equality, and fraternity, by continuing to resist all monopolies and exclusive legislation for the benefit of the few at the expense of the many, and by a vigilant and constant adherence to those principles and compromises of the constitution which are broad enough and strong enough to embrace and uphold the Union as it was, the Union as it is, and the Union as it shall be, in the full expansion of the energies and capacity of this great and progressive people.

Resolved, That the fruits of the great political triumph of 1844, which elected James K. Polk and George M. Dallas, President and Vice President of the Union, in defeating the declared purposes of their opponents to create a national bank, in preventing the corrupt and

and risk them in the hands of their own adversaries, with whatever delusive appeals they may solicit our surrendar of that vigilance, which is the only safeguard of liberty. Resolved. That this convention will select eight candidates for electors of President and Vice President from the eight Congressional Districts of this State. and two candidates for electors for the State at large. Adopted. Resolved. That this convention now proceed to appoint four delegates to each Congressional District of this state, and eight delegates for the State at large, to attend the convention to be held in Baltimore in June next.

Mr. Cochan. of Wilkinson, moved that the delegation from each Congressional District, be a committee to select and report to the convention, for each district, one Presidential elector and one alternate, and four delegates to Baltimore; and that this convention elect two Presidential electors, and eight delegates to Baltimore, for the State at large.

Baltimore; and that this convention elect two Presidential electors, and eight delegates to Baltimore, for the State at large.

Mr. Nelson, of Cobb, moved to amend as follows:—
Resolved. Before Hon. Judge Rocevett.

Aran. 6.—John McLeanvs. Go. G. Heydeck.—This was an action to recover a balance of \$425. alieged to be due on the following transactions:—In July, 1850. the plaintiff sold the defendant a Durham cow for \$80, and two horses for \$800. On the lat of August, the defendant paid plaintiff \$400 on account, and at the same time, sold to him (the plaintiff) two cows for \$55, leaving a balance of \$425. The defence is that the horses were taken at a stipulated price, if they suited him; if not, he was to send them back; they did not suit the defendant, but the plaintiff told him to keep them for the present, and borrowed \$400 from the defendant on the horses. In the month of March, the pjaintiff not sending for the horses was notified by the defendant that they would be sold. The horses were accordingly sold for \$220. leaving nat proceed of \$202 the expenses being \$18. The defendant claims that the plaintiff owes him \$216 40. It is a more question of veracity. Sealed verdiot.
